

I benefit from listening XM satellite Radio all the stations even the weather and traffice channels. Xm provides a diffrent quality as well as variety stations you dont get elsewhere on the regular broadcasting Fm/Am stations. Its our choice if we want to pay monthly for these awesome stations on XM that are very benefical. I pay out of my own pocket for XM its not up to the National Association of Broadcasters to dictate what you are permitted for us to hear. I urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that i demand and deseve. It would be a diffrent thing if this was a regular station anyone gets but its XM, its diffrent you pay for this service, not everyone has it, its on its own level. Please dont do this to us XM radio listeners. I really would be upset by this whole situtation, actually its degrading.
